## Tellioglu Flour

Our central factory which was founded in 1982, with production capacity of 100 tons per day, according to the framework of the needs; it has continued to make tonnage and quality advancement investments; resulted in reaching 200 tons a day production capacity.

As a result of capacity insufficiency, with completion of investments on Balıkesir Yeniköy facility, its production capacity has reached 600 tons/day. Our enterprises produce services and goods according to ISO 22000:2005 food safety management system and ISO 9001:2008 quality management standards.

Our company, by increasing horizontal stock capacity and vertical steel silo investments, also with latest additions, has reached the stock capacity field of 55 thousand tons. To adapt to rapid developments in the food sector and setting of from technological integration principal, our enterprise is equipped with modern laboratory equipment. In a highly competitive market; our company which regards continuity, permanence, and branding as principle, also moves by focusing on production quality, customer satisfaction and good service. In this aspect we continue to test all raw materials and products periodically.

## Tellioglu Feed

Our facility which became operational in 1995 is equipped with modern high technology and has 60 tons / hour production capacity, that serves for livestock industry in the aspect of producing feeds for cattle and poultry which provides meat, milk and egg in high levels.

Our feed factory that was established on 5000 m2 covered area has 35,000 tons of raw material storing capacity with 15,000 tons steel silo and 20,000 tons horizontal storage.

Tellioglu Feed owes its growth and development to customer-oriented work culture, corporate philosophy and "make them earn, earn" conception. In this regard Tellioglu Feed, in satisfying the needs of country livestock, providing solutions in different ways compared to its competitors, it continues to move forward with wide range of products and service conception of its expert technical staff.

For production of quality products and services, our company keeps producing services and goods according to ISO 22000:2005 food safety management system and ISO 9001:2000 quality management standards.

Our company's R & D department designs new products to satisfy the needs of livestock industry for providing more efficient and profitable livestock production, in regards of its research and development efforts.

Our company's feed laboratory permits evacuation after quality control analysis of raw materials and approves the shipment of products in the supposed the limited amounts. The products that are outside of our quality control criteria are not approved.

## Tellioglu Hatchery and Breedings

Our company has an annual production capacity of 18 million eggs and has 27 breeding coops that are built on with a total of 30 thousand m2 area .Our brooding facility is equipped with Petersime incubation machines that are made in Belgium.

Our company which advances with "HEALTH FIRST" slogan, by setting off from production in maximum hygienic environment, continues to production of broiler chicks and earned a rightful place for itself. As being one of the incubation facilities in country, our company takes part in periodic export of hatchery eggs.

## Tellioglu Fruit Farming

Tellioglu Group in 2006 has started fresh fruit farming by planted 30 thousand apple trees.

## Tellioglu Cold Facilities

Our facilities can function between +12 and -18 degrees Air conditioner system with 100m<sup>2</sup> and 9 meters of height 4 separate rooms and the truck weigh-bridge Provides best storing environment for every product.

## **Tellioglu Marble**

VEROMAR is our first investment in non-food sector, with a fully export-oriented ownership structure was established in 2002. All kinds of marbles and travertine like mosaic, tile, border, profile and medals are processed.

With the brand VEROMAR, we export to many countries like particularly United States and also Spain, Italy, Ireland, Greece, Korea, Japan and South Africa.

With monthly average of 25 thousand m2 of production capacity, our company aims to be one of the leading prestigious companies of world natural stone market with its variety of products and production quality.

## **Tellioglu Petrol Station**

Our OPET Petrol station which is established next to our Tellioglu flour factory in Balıkesir Yeniköy area is up for becoming your new taste and shopping stop. "Tellioglu Değirmen Restaurant" which will offer local and international cuisines is being prepared to deliver the best service.
